60 Month – Residual 30% of MSRP – .00258 Base Rate

Residuals posted are for 15K miles/year. Add 2% to Residual for 12k mi/yr and 3% for 10k mi/yr on all terms

Use the following formula to calculate a lease payment:

$(\text{Cap Cost} - \text{Residual Value}) / \text{Term} = \text{Depreciation}$

$(\text{Cap Cost} + \text{Residual Value}) \times \text{Money Factor} = \text{Interest}$

$\text{Depreciation} + \text{Interest} = \text{Base Monthly Payment}$

NOTE: These lease programs are provided by dealer partners of LeaseCompare.com and are for reference only. Rates may vary by region. Your dealer has the option of offering you a higher rate. To make sure you are getting the best lease, compare these rates through an independent leasing source such as

LeaseCompare.com.

Here is a great online publication about leasing: **[Auto Lease Insider](#)**.
